Darkat

"Omnia Ab Uno"

Nutmeats Recordings is proud to announce the release of a new album by Oakland producers **Ezra Eismont** and **Jeremy Goody** of the critically acclaimed DJ collective **Cat Five**.

This six-song, vinyl EP contains an excellent introduction into the world of duality and coincidence inhabited by this tightly synced production team.

Ezra, operating as **DJ Darkat**, came up with the original concept for this set of tracks. The beats presented to Jeremy (AKA **Balanceman**) consisted of haiku-like sample collages embracing space and distance as central themes. Recognizing the simple beauty contained in these works, Balanceman processed the tracks at his Megasonic sound studio to further define the strong personality in Darkat's production.

The Darkat 12" is a logical extension of the sound created with Cat Five. With "Omnia Ab Uno" (all from one), Darkat presents a thoughtful approach to downtempo, allowing for the natural combinations of seemingly unconnected events to show their truly linked nature. Keeping the focus and poetic intent of these tracks, this pair has created a truly unique canvas.

Included with the vinyl is a limited edition xerographic print by Ezra with a link to high quality audio files available for download - a digital version of the vinyl record - adding value to the release.

About Ezra:

Raised in Brooklyn and Oakland, Ezra comes from a long line of artists. His artwork has been published and exhibited internationally, and is featured on the cover of "Omnia Ab Uno". His music reflects a creative bicoastal upbringing. Darkat brings a soft and warm Northern California perspective on sampling mixed with the hard as hell drum programming that typifies an East Coast five element mentality.

About Jeremy:

Born in the Bay Area, Balanceman has been involved in music production for 15 years. His compositions have received international praise, heavy airplay and earned this musician a great level of respect from his peers. In addition to his Nutmeats releases, his work can be found on Deluxe Records, Anticon and Lexx.
